

Science**6th class**

1.a mesurment consists of

- (a) numbers only (b) unit only (c) both A and B (d) none of these

2. 1 millennium is equal to

- (a) 10 years (b) 100 years (c) 1000 years (d) 2000 years

3. which of the following means of transport was developed in 19th century ?

- (a) aroplanes (b) supersonic aeroplanes (c) space-craft (d) none of these

4. electrostatic force is a

- (a) contact force (b) non-contact force (c) balanced force (d) unbalanced force

5. we can classify fog as

- (a) transparent substance (b) opaue substance (c) translucent substance (d) none of these

6. shadows cannot be formed

- (a) during the noon time (b) in the dark (c) during morning time (d) all of these

7. light is a form of energy produced by a

- (a) luminous object (b) non-luminous object (c) transparent object (d) opaque object

8. planets are example of

- (a) luminous object t (b) non-luminous object (c) transparent object (d) translucent object

9. which is the safest way to view a solar eclipse ?

- (a) using a solar filters (b) a pinhole filter (c) binoculars or telescope (d) none of these

10. what is the correct alignment during a solar eclipse ?

- (a) sun,moon ,earth (b) moon, sun, earth (c) sun, earth, moon (d) non of these

11. how meny terminals are there in a switch ?

- (a) 1 (b) 2 (c) 3 (d) 4

12. electrical wires are made of

- (a) a conducting materials (b) aluminium (c) copper (d) all of the above

13. a complete electric circuit is called a/an _____electric circuit

- (a) open (b) closed (c) terminal (d) non of these

14. metals conduct charges better then wood because metals have more

- (a) protons (b) free electrons (c) negative ions (d) space between particles

15.air is an insulator of electricity because air have no_____

- (a) electrons (b) free electrons (c) protons (d) non of these

16.the oldestone is a_____
